Clay Offers

Clearance

1108-10	New Farnham Pink	10 kg £ 5.00 <i>was £9.63</i>
<p>A highly plastic & fairly smooth textured throwing body. Rich toasted colour at upper temperatures. Stock is fairly hard consistency therefore we are offering it at clearance prices. YouTube video available for advice re: softening clay. Firing range: 1100 - 1280 C</p>		
159-1133	Mocha Body	12.5 kg £ 2.75 <i>was £10.49</i>
<p>This is a high quality, smooth earthenware body firing to a warm mocha colour. It has low flux content to improve glaze pick-up and enabling it to be used at higher temperatures. Note: Lab tests show that this body is sensitive to firing speed. Too fast a firing can cause bloating and lower the max. temp to around 1220. Firing range: 1080 - 1180 C</p>		
159-3340	Mocha Sanded Body	12.5 kg £ 3.00 <i>was £11.02</i>
<p>A sanded version of 159-1133. Ideal for tiles, slab work, large pieces and murals. High resilience and good warp resistance, yet the relatively smooth texture allows detail to be captured. Note: Lab tests show that this body is sensitive to firing speed. Too fast a firing can cause bloating and lower the max. temp to around 1220 C. Firing range: 1080 - 1180 C</p>		
159-1139S	Etruscan Red	12.5 kg £ 4.00 <i>was £5.21</i>
<p>A 8-10% sanded version of the Etruria Marl based red earthenware body famously used to produce the Tower Poppies. Highly plastic for throwing, handbuilding and casting. Fires to a medium red colour becoming darker with increased temperature. Firing range: 1060 - 1160 C</p>		
Extra Specials		
150-1106	White St. Thomas	12.5 kg £ 7.50 <i>was £16.04</i>
<p>Suitable for all thrown applications including large dinnerware platters, this 'white' firing clay has exceptional shape stability in both oxidation and reduction firing. Also excellent for small pots. Will withstand very high temperatures. Firing range: 1160 - 1300 C</p>		
155-1149	H.F. Porcelain	12.5 kg £ 12.95 <i>was £27.12</i>
<p>Strong, white & translucent, this well known throwing porcelain developed by Harry Fraser, combines the finest quality & value. Throws well. Consistent & reliable. A truly excellent white-burning translucent porcelain. Firing range: 1220 - 1290 C</p>
